

**Aviation & Gateways**

With over 120 years of facilities management experience, OCS combine industry expertise with specialist knowledge and world-class resources.

Our team provide outstanding facilities management, integrated landside operations, passenger services, security, fleet and logistics and specialist services to ports and docks across the UK.

We provide facilities management and port services for docks, ports, ferries, cargo ships, cruise ships and terminals, and above all passengers. Not only do we provide the best possible service, but we also ensure our solutions are sustainable, secure and offer best value.
